

HIGH BAY LED FLOODLIGHTS WITH MAXIMUM POWER

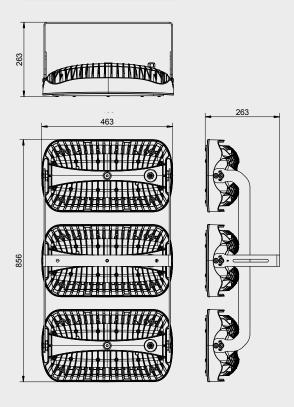

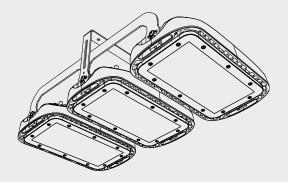

BEETLE II LED FLOODLIGHT TRE is a modular lighting solution for sports facilities, airports or loading docks. It's the right choice wherever strong lighting is needed high up. Due to the fact that BEETLE II LED FLOODLIGHT TRE luminaires are characterised by a strong luminous flux, high luminous efficiency and high temperature resistance, this set is not only energy-saving but also very durable. Free configuration of the number of luminaires and power selection allows for ideal adjustment of BEETLE II LED FLOODLIGHT TRE to customer needs. In addition, the steel structure supporting the luminaires is customised to fit the façade or pole.

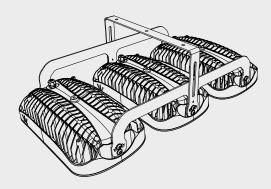

## **TECHNICAL DATA**

| Light source                 | LED  |
|------------------------------|--|
| Power consumption            | 900 W  |
| Luminaire luminous flux      | 119 700 lm                                       |
| Luminaire efficacy           | 141 lm/W   |
| Colour temperature           | 4 000 K, 5 700 K, other colours on request       |
| Colour rendering index (CRI) | 70   |
| Lumen maintenance output     | 100 000 h (L80B10)                               |
| Operating temperature        | -40°C do +45°C                                   |
| Beam angles                  | 20°, 30°, 60°, 90°, asymmetric, other on request |
| Material                     | high-pressure die-cast aluminium                 |
| Colour                       | anthracite; other colours on request             |
| Finish                       | powder coating                                   |
| Optics                       | PMMA   |
| Glass                        | tempered glass                                   |
| Ingress protection rating    | IP66/67  |
| Impact protection rating     | IK09   |
| Weight                       | 1 luminaire - 9 kg                               |
| Voltage                      | 230 V  |
| Frequency                    | 50 Hz  |
| Warranty                     | 5 years  |
| Control systems              | optional   |
|                              |  |

When ordering, please specify the desired beam angle curve and colour temperature.

### **KEY ADVANTAGE**

- exceptional luminaire efficacy up to 141 lm/W
- power up to 900 W
- service life up to 100 000 h (L80B10)
- high temperature resistance (LUMI COOL®)
- possibility to order steel construction made to measure
- power supply can be mounted externally on ground
- possibility to combine any number of luminaires depending on the required luminous flux
- wide range of power and beam angles
- easy assembly and setting (adjustable handle)
- can be adapted to any control system
- italian design and solid workmanship (IP66/67, IK09)
- made in EU

#### **APPLICATION:**

- outdoor sports facilities
- logistics hubs
- Ioading docks • city squares and intersections
- parking areas

Luminous flux tolerance +/- 10%. Power consumption tolerance depends on the power level - less than 100 W or equal to 100 W power consumption tolerance is 5%, over 100 W - 2.5%. The luminous flux, light intensity distribution and light efficiency were tested according to PN-EN 13032-4. 2015-09 and PN-EN 60598-1: 2015-04 at an ambient temperature of 25°C. Accessories for installation are quoted separately by the manufacturer. The latest product data is available on our website at www.lumiteam.eu | We reserve the right to make constructional changes to the luminaires. Update date: 2024-02-21
