

LUCA MAXI HERMETIC LED

LINEAR HERMETIC LED FIXTURE
WITH VERY LOW UGR

LUCA MAXI HERMETIC LED is a hermetic light fitting for use in production halls, storage rooms, workshops, supermarkets as well as car parks. Given its high ingress protection rating IP65, it is also perfectly applicable in car washes. With its excellent performance and optics, the light fitting can be used in narrow corridors as well as open spaces. Simple design ensures easy installation. Connectable units can be easily and tool-free installed in continuous light-lines, which constitutes an additional strength of the fitting. Equipped with linear optics with very low unified glare rating (UGR), LUCA MAXI HERMETIC LED is perfect for low and medium installation heights.
